20 and 21 November 2019 LA NAVE / MADRID

Hospitality machinery in every sense

hostelshow.es

Welcome to the hospitality revolution

Imagine an event where installers and distributors meet up with manufacturers and importers of hospitality machinery and equipment. A space where you can also meet the most relevant executives in the hospitality sector. And now think of a space where you can meet some of the most influential people in the Catering sector.

Introducing HostelShow, an event held together with Foodservice to provide a 360 degree experience. Machinery and gastronomy merge to generate new business opportunities, learn about the latest innovations, and help promote your business to the highest position in the sector.

What is Hostelshow?

It is a professional event involving work, relationship, management and business between manufacturers/importers and distributors/installers of hospitality machinery and equipment.

Provides the opportunity to directly coordinate appointments with owners and procurement managers of organised catering businesses, hotels, food service businesses and community groups.

It is convenient and experiential:

Manufacturers will present their hospitality equipment, how it works, their technical characteristics, advantages and special features.

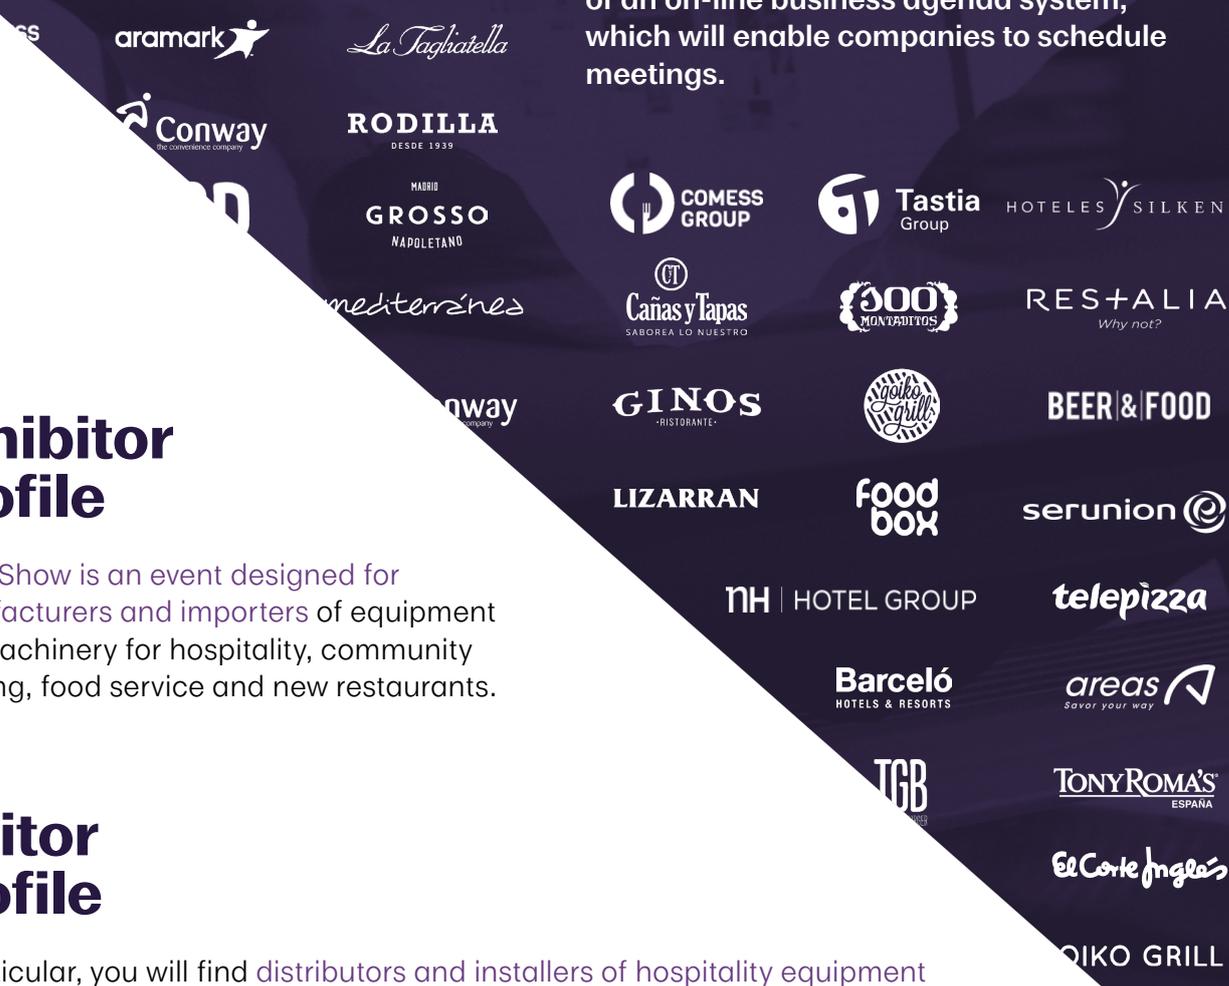

At HostelShow, the distributor/installer will be able to discover, see, touch and explore in depth the hospitality equipment exhibited by manufacturers and importers.

espacionegocio^x

We offer you a space designed to promote business. Imagine being able to sit down with the head of the Procurement Department in some of the most important chains of the country. Benefit from private meetings within the Expo Foodservice environment with large operating

companies (commercial catering, contract catering, hotels, and distributors). Profiles of companies with high turnover volumes and in the midst of an expansion process. These meetings will be held in a dedicated area in order to individually address the business proposals of the exhibiting companies. All of this is arranged by means of an on-line business agenda system, which will enable companies to schedule meetings.

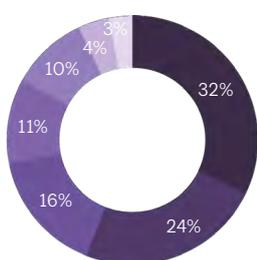

Exhibitor Profile

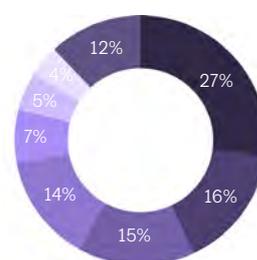

HostelShow is an event designed for manufacturers and importers of equipment and machinery for hospitality, community catering, food service and new restaurants.
